Environmental Assessment
Determinations and Compliance Findings for HUD-assisted Projects
24 CFR Part 58

Project Information
Project ID: PR-RGRW-20833059

Project Name: Terra Viva Finca Don Tono

Responsible Entity: Puerto Rico Department of Housing

Grant Recipient (if different than Responsible Entity): Not Applicable

Program: Re-Grow Puerto Rico Urban-Rural Agriculture Program

State/Local Identifier: Puerto Rico / Municipio of Barranquitas

Preparer: Steve Swick, RPG

Certifying Officer Name and Title: Sally Acevedo Cosme, Pedro De Leon Rodriguez, Maria T. Torres-Bregon, Permit and Environmental Compliance Officers

Consultant (if applicable): HORNE LLP

Direct Comments to: Sally Acevedo Cosme
**Project Location:** SR 770, Km. 3, Barranquitas, PR 00794
Greenhouse latitude 18.220182, longitude -66.346695
Parcel cadastral # 220-000-008-29-000; 220-000-008-28

**Description of the Proposed Project** [24 CFR 58.32; 40 CFR 1508.25]: Purchase of greenhouse structure including tables, irrigation lines, PVC, crop profiles, tanks, pumps, and timer, 20-foot shipping container for storage, and solar system with capacity to produce 20kw daily, batteries, inverter, and plates. The greenhouse and the photovoltaic system will be placed on bare ground in close proximity to each other.

A Site Map is included, illustrating the location of the greenhouse and the photovoltaic system on the property.

**Statement of Purpose and Need for the Proposal** [40 CFR 1508.9(b)]: The Re-Grow Puerto Rico Urban-Rural Agriculture Program (Re-Build) will build agricultural capacity and is focused on promoting and increasing food security island wide and enhancing and expanding agricultural production related to economic revitalization and sustainable development activities. This agricultural project associated with the greenhouse placement is in keeping with the overall objectives of the economic development program.

**Existing Conditions and Trends** [24 CFR 58.40(a)]: The existing area for the proposed greenhouse placement is used for agricultural purposes. Therefore, there is no change in land use associated with this greenhouse placement.

**Funding Information**

**Estimated Total HUD Funded Amount:** $63,167.82

**Estimated Total Project Cost** (HUD and non-HUD funds) [24 CFR 58.32(d)]: $63,167.82
Compliance with 24 CFR 58.5 and 58.6 Laws and Authorities

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

**Environmental Assessment Factors** [24 CFR 58.40; Ref. 40 CFR 1508.8 & 1508.27] Recorded below is the qualitative and quantitative significance of the effects of the proposal on the character, features and resources of the project area. Each factor has been evaluated and documented, as appropriate and in proportion to its relevance to the proposed action. Verifiable source documentation has been provided and described in support of each determination, as appropriate. Credible, traceable and supportive source documentation for each authority has been provided. Where applicable, the necessary reviews or consultations have been completed and applicable permits of approvals have been obtained or noted. Citations, dates/names/titles of contacts, and page references are clear. Additional documentation is attached, as appropriate. All conditions, attenuation or mitigation measures have been clearly identified.

**Impact Codes:** Use an impact code from the following list to make the determination of impact for each factor.

1. Minor beneficial impact
2. No impact anticipated
3. Minor Adverse Impact – May require mitigation
4. Significant or potentially significant impact requiring avoidance or modification which may require an Environmental Impact Statement

Programmatic Agreement among the Federal Emergency Management Agency, the Puerto Rico State Historic Preservation Office and the Central Office for Recovery,
Reconstruction and Resilience – amended to include the Puerto Rico Department of Housing. (Appendix F)

US Environmental Protection Agency, National Ambient Air Quality Standards, Nonattainment Areas for Criteria Pollutants (Green Book): www3.epa.gov/airquality/greenbook/anayo_pr.html

US EPA, Environmental Topics, Air Topics: www.epa.gov/environmental-topics/air-topics

Puerto Rico Planning Board, Communication regarding Coastal Zone Management, November 16, 2018 (No response).

US EPA, Sole Source Aquifers. Esri HERE, Garmin, NOAA, USGS, EPA.

US Fish and Wildlife Service, Caribbean Ecological Services Field Office. E-mail communication regarding October 23, 2018 letter on Threatened and Endangered Species and Critical Habitats.

US Geological Survey, Data Release of May Showing Concentration of Landslides Caused by Hurricane Maria, https://doi:10.5066/F7JD4VRF

List of Permits Obtained: None required.
Public Outreach [24 CFR 58.43]: The local community has been very proactive in the recovery process. PRSTRT has worked closely with the agricultural community.

Cumulative Impact Analysis [24 CFR 58.32]: In accordance with 24 CFR 58.32 (Aggregation), there are no cumulative impacts associated with the placement of the greenhouse on this agricultural site.

Alternatives [24 CFR 58.40(e); 40 CFR 1508.9]

No Action Alternative [24 CFR 58.40(e)]:
The ‘No-Action’ alternative would mean that the applicant would not receive federal funding to provide for the greenhouse and equipment which would inhibit the economic growth opportunity that the applicant would not otherwise have under the PRDOH Re-Grow Puerto Rico program. As a result, these owners may not be able to experience the growth needed to recover and expand their agriculture activities. A provision of the grant allows for economic development for businesses. The No-Action alternative would not allow for this economic development for this applicant.

Summary of Findings and Conclusions: The proposed activity has been found to not have any adverse effects on the environment nor is there the requirement for further consultation with any agency. There are no environmental review topics addressed that result in the need for formal compliance steps or the requirement for mitigation.

Mitigation Measures and Conditions [40 CFR 1505.2(c)]

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Determination:

☒ Finding of No Significant Impact [24 CFR 58.40(g)(1); 40 CFR 1508.27]

The project will not result in a significant impact on the quality of the human environment.

☐ Finding of Significant Impact [24 CFR 58.40(g)(2); 40 CFR 1508.27]

The project may significantly affect the quality of the human environment.

Type of Undertaking:
☐ Substantial Repair
✓ New Construction

Construction Date (AH est.): n/a
Property Size (acres): 5.65

SOI-Qualified Archaeologist: Site Visit by: Eminett Jimenez Ramos
Date Reviewed: Site visited on: September 2, 2021.

In compliance with Section 106 of the National Historic Preservation Act (NHPA), the Program is responsible for identifying historic properties listed in the NRHP and any properties not listed that would be considered eligible for listing that are located within the geographic area of potential effects (APE) of the proposed project and assessing the potential effects of its undertakings on these historic properties.

Project Description (Undertaking)

The undertaking consists of the construction of a new greenhouse and the installation of new solar panels near the boundary of the combined parcels. The land is organized in terraces and the owners will construct the proposed structures on the middle terrace close to the property boundary.

Area of Potential Effects

As defined in 36 CFR §800.16(d), the area of potential effects (APE) is the geographic area or areas within which an undertaking may directly or indirectly cause changes in the character or use of historic properties if any such properties exist. Based on this definition and the nature and scope of the Undertaking, the APE has been defined as the area potentially impacted by ground disturbing activities related to the construction of the new greenhouse and solar panels (see Area of Potential Effect Map).

Identification of Historic Properties – Archaeology

A Program contracted Historic Preservation Specialist meeting the Secretary of the Interior’s Professional Qualification Standards (36 CFR Part 61) conducted background research to identify archaeological surveys, previously recorded archaeological sites, and National Register districts within a 0.5-mile radius. Background research indicates no resources are present within the 0.5-mile study area. The closest identified cultural resources, Cueva del Indio to the northeast and Palo Hincado to the south, are both approximately 2-miles from the project APE.

The landscape is characterized as steep and is not suitable for settlement activities of prehistoric cultures. Additionally, the review of existing background information found that the proposed project area is not within the boundaries of a National Register of Historic Places (NRHP)-eligible /listed nor to a Traditional Urban Center / Historic District.
The proposed construction APE was visually inspected on September 2, 2021. The ground surface was eroded with moderate to good surface visibility. Visual inspection of the exposed surface found no evidence of cultural materials within the construction APE.

**Determination:**

The review of existing background information and the results of an archaeological site visit indicate no historic properties or cultural resources are within the 0.5-mile radius study area or within the construction APE. Visual inspection of the construction APE found no evidence of cultural materials. Impacts from residential construction and generational land use for agriculture have altered the landscape. In addition, landslides occurred in the area following Hurricane María and were subsequently cleaned and leveled where possible and in some locations filled and stabilized with gravel. Characterized by steep slopes over 30 degrees (57.7%), the topography is considered excessive for prehistoric settlement patterns.

The review of existing background information found that the proposed project area is not within the boundaries or visual APE of a National Register of Historic Places (NRHP)-eligible /listed nor to a Traditional Urban Center / Historic District.

The Program has determined the undertaking will not affect any historic properties and that a determination of **No Historic Properties Affected** is appropriate for this project.

ReGrow Puerto Rico Program
Section 106 NHPA Effect Determination

Applicant: Terra Viva Finca Don Toño

Project Location (Street Address): SR 770, KM. 3  City: Barranquitas

Recommendation (Please keep on same page as SHPO Staff Section)

The Puerto Rico Department of Housing requests that the Puerto Rico SHPO concur that the following determination is appropriate for the undertaking (Choose One):

☑ No Historic Properties Affected
☐ No Adverse Effect
Condition (if applicable):

☐ Adverse Effect
Proposed Resolution (if applicable)

This Section is to be Completed by SHPO Staff Only

The Puerto Rico State Historic Preservation Office has reviewed the above information and:

☐ Concur with the information provided.
☐ Does not concur with the information provided.

SHPO: 10-04-21-02 SUBMISSIONS 20210916 PUERTO RICO DISASTER RECOVERY, CDBG-DR RE-GROW PR URBAN-RURAL AGRICULTURAL PROGRAM, PR-RGRW-2083059, TERRA VIVA-FINCA DON TOÑO, PR-770 KM 3, BARRANQUITAS, PUERTO RICO

Dear Ms. Poche,

Our Office has received and reviewed the above referenced project in accordance with 54 USC 306108 (commonly known as Section 106 of the National Historic Preservation Act, as amended) and 36 CFR Part 800: Protection of Historic Properties from the Advisory Council on Historic Preservation. The State Historic Preservation Officer (SHPO) is to advise and assist federal agencies and other responsible entities when identifying historic properties, assessing effects upon them, and considering alternatives to avoid or reduce the project’s effects.

Our records support your finding of no historic properties affected within the project’s Area of Potential Effects.

Please note that should the Agency discover other historic properties at any point during project implementation, you should notify the SHPO immediately. If you have any questions concerning our comments, do not hesitate to contact our Office.

Sincerely,

Carlos A. Rubio-Cancela  
State Historic Preservation Officer

Puerto Rico Disaster Recovery, CDBG-DR Re-Grow PR Urban-Rural Agricultural (Re-Grow PR) Program

Section 106 NHPA Effect Determination Submittal: SR 770, KM. 3, Barranquitas, Puerto Rico (Case PR-RGRW-2083059) and SR 453 Piletas Castro, Lares, Puerto Rico (Case PR-RGRW-21534182)

Dear Architect Rubio Cancela,

On February 9, 2018, an allocation of Community Development Block Grant - Disaster Recovery (CDBG-DR) funds was approved by the United States Department of Housing and Urban Development (HUD) under the Federal Register Volume 83, No. 28, 83 FR 5844, to assist the Commonwealth of Puerto Rico in meeting unmet needs in the wake of Hurricanes Irma and Maria. On August 14, 2018, an additional $8.22 billion recovery allocation was allocated to Puerto Rico under the Federal Register Volume 83, No. 157, 83 FR 40314. With these funding allocations, the Puerto Rico Department of Housing (PRDOH) aims to lead a comprehensive and transparent recovery for the benefit of Puerto Rico residents. To faithfully comply with HUD's environmental requirements, the Puerto Rico Department of Housing contracted Horne Federal, LLC (HORNE) to provide environmental records review services that will support the Department's objectives Puerto Rico Housing (PRDOH) for CDBG-DR. The purpose of the Re-Grow PR Program is to promote and increase food security island-wide, enhance and expand agricultural production related to economic revitalization and development activity.

On behalf of PRDOH and the subrecipient, the Puerto Rico Science, Technology and Research Trust (PRSTRT), we are submitting documentation for new construction activities proposed at SR 453 Piletas Castro, Lares and SF 770, KM. 3, Barranquitas.

At SF 770, KM. 3, Barranquitas (PR-RGRW-2083059), the undertaking consists of the construction of a new greenhouse and the installation of new solar panels near the boundary of the combined parcels that compose the property. The land is organized in terraces and the owners will construct the proposed structures on the middle terrace close to the property boundary.

At SR 453 Piletas Castro, Lares (Case PR-RGRW-21534182), the undertaking consists of the construction of an additional greenhouse to the West of the present Green House. The terrain consists of calcareous rock and the owners had to break the rock to level and accommodate the existing greenhouse. It is anticipated that similar site preparation work will be required for the construction of the new greenhouse.
Based on the submitted documentation, the Program requests a concurrence with a determination of No Historic Properties Affected is appropriate for both proposed projects.

Please contact me by email at lauren.poche@hornellp.com or phone at 225-405-7676, or Ms. Eminett Jimenez Ramos by email at eminett.jimenez@hornepr.com or by phone at 939-236-6275 with any questions or concerns.

Kindest regards,

Lauren Bair Poche
Architectural Historian, Historic Preservation Manager

Enclosures
In compliance with Section 106 of the National Historic Preservation Act (NHPA), the Program is responsible for identifying historic properties listed in the NRHP and any properties not listed that would be considered eligible for listing that are located within the geographic area of potential effects (APE) of the proposed project and assessing the potential effects of its undertakings on these historic properties.

**Project Description (Undertaking)**

The undertaking consists of the construction of a new greenhouse and the installation of new solar panels near the boundary of the combined parcels. The land is organized in terraces and the owners will construct the proposed structures on the middle terrace close to the property boundary.

**Area of Potential Effects**

As defined in 36 CFR §800.16(d), the area of potential effects (APE) is the geographic area or areas within which an undertaking may directly or indirectly cause changes in the character or use of historic properties if any such properties exist. Based on this definition and the nature and scope of the Undertaking, the APE has been defined as the area potentially impacted by ground disturbing activities related to the construction of the new greenhouse and solar panels (see Area of Potential Effect Map).

**Identification of Historic Properties – Archaeology**

A Program contracted Historic Preservation Specialist meeting the Secretary of the Interior’s Professional Qualification Standards (36 CFR Part 61) conducted background research to identify archaeological surveys, previously recorded archaeological sites, and National Register districts within a 0.5-mile radius. Background research indicates no resources are present within the 0.5-mile study area. The closest identified cultural resources, Cueva del Indio to the northeast and Palo Hincado to the south, are both approximately 2-miles from the project APE.

The landscape is characterized as steep and is not suitable for settlement activities of prehistoric cultures. Additionally, the review of existing background information found that the proposed project area is not within the boundaries of a National Register of Historic Places (NRHP)-eligible /listed nor to a Traditional Urban Center / Historic District.
The proposed construction APE was visually inspected on September 2, 2021. The ground surface was eroded with moderate to good surface visibility. Visual inspection of the exposed surface found no evidence of cultural materials within the construction APE.

**Determination:**

The review of existing background information and the results of an archaeological site visit indicate no historic properties or cultural resources are within the 0.5-mile radius study area or within the construction APE. Visual inspection of the construction APE found no evidence of cultural materials. Impacts from residential construction and generational land use for agriculture have altered the landscape. In addition, landslides occurred in the area following Hurricane María and were subsequently cleaned and leveled where possible and in some locations filled and stabilized with gravel. Characterized by steep slopes over 30 degrees (57.7%), the topography is considered excessive for prehistoric settlement patterns.

The review of existing background information found that the proposed project area is not within the boundaries or visual APE of a National Register of Historic Places (NRHP)-eligible /listed nor to a Traditional Urban Center / Historic District.

The Program has determined the undertaking will not affect any historic properties and that a determination of **No Historic Properties Affected** is appropriate for this project.
### Puerto Rico 2017 Disaster Recovery, CDBG-DR Program

**Regrow Puerto Rico Program**

**Section 106 NHPA Effect Determination**

**Applicant:** Terra Viva Finca Don Toño

**Project Location (Street Address):** SR 770, KM. 3

**City:** Barranquitas

---

**Recommendation (Please keep on same page as SHPO Staff Section)**

The Puerto Rico Department of Housing requests that the Puerto Rico SHPO concur that the following determination is appropriate for the undertaking (Choose One):

- ☑ No Historic Properties Affected
- ☐ No Adverse Effect
  - **Condition (if applicable):**
  - ☐ Adverse Effect
  - **Proposed Resolution (if applicable):**

---

**This Section is to be Completed by SHPO Staff Only**

The Puerto Rico State Historic Preservation Office has reviewed the above information and:

- ☐ **Concurs** with the information provided.
- ☐ **Does not concur** with the information provided.

**Comments:**

San Juan, Puerto Rico

Re: Autorización para Someter Documentos

Estimado Arq. Rubio Cancela:

El Departamento de Vivienda y Desarrollo Urbano (HUD, por sus siglas en inglés) de los Estados Unidos aprobó una asignación de fondos tipo Subvención en Bloque para el Desarrollo Comunitario (CDBG-DR, por sus siglas en inglés) el 9 de febrero de 2018. El objetivo de esta asignación es atender necesidades insatisfechas a consecuencia del paso de los huracanes Irma y María ocurrido en septiembre de 2017.

Para cumplir con los requisitos ambientales que establece HUD, el Departamento de Vivienda de Puerto Rico contrató a Horne Federal, LLC para proporcionar servicios de revisión de registros ambientales, entre otros, que respaldarán los objetivos de la agencia para el Programa CDBG-DR.

En el ánimo de agilizar los procesos se autoriza a Horne Federal, LLC, a presentar ante la Oficina Estatal de Preservación Histórica, documentación de los casos relacionada al Programa CDBG-DR en representación del Departamento de Vivienda.

Cordialmente,

Dennis G. González Ramos, PE MEM
Subsecretario
Programa CDBG-DR
